Federal Programme Kita-Einstieg in Bedburg

New project for families in Bedburg

Until 2020, the federal programme “Day care centres enrolment: building bridges to early education” will be providing financial support to project partners across Germany who develop new offers for families. Each project partner has their own way of building bridges between families and the issues of early education and childcare.

Here in Bedburg, an entire team is working on implementing the project. The Kita-Einstieg team operates premises in Kaster and Blerichen and is in contact with child day care facilities in Bedburg.

The free service is aimed at families whose children do not have a place in a childcare/day care centre yet. While the project is not designed to provide a substitute for a childcare place, it gives parents and children the opportunity to socialise by singing, doing handicrafts and playing together.

In addition to the concrete offers, we also offer expert advice on various topics related to childcare in Bedburg.

Offenbachstraße 19 (O-19)

The rooms in the Office of Integration have become more colourful. While the rooms were previously only used by the integration team, things have become brighter and more interesting. Our big and small explorers can splash about in the ball pool and have fun with many other toys. The fully equipped kitchen and large tables in the classroom are perfect for communal activities such as a parent breakfast.

Ms Liebel and Ms Ibrahim look forward to meeting you.

Barbarastraße 1 (B-1)

This location in Kaster is brand new – it's in the middle of a residential area and within walking distance of the new Haus der Begegnung. Here, too, children and parents will be inspired by all kinds of play and informational materials in the friendly rooms. This includes anything from handicraft projects at the big table to playing on the play carpet. There is something here for every child aged between 0 and 5.

Ms Geuther and Ms Panzer look forward to meeting you.
